

HELP SUPPORT AND PROMOTE PUBLIC OPINION RESEARCH WORLDWIDE

Dear Potential Sponsor,

The World Association for Public Opinion Research (WAPOR) is the leading professional organization of public opinion research professionals from around the world. As you know, public opinion is a critical force in shaping and transforming society. Properly conducted and disseminated survey research provides the public with a tool to measure opinions and attitudes in order to allow its voices to be heard. WAPOR seeks to establish the highest standards in public opinion research throughout the world and is committed to promoting the freedom to conduct and publish scientific research on what the people think.

Our most visible annual activity, WAPOR's annual conference gathers together leading survey research professionals and practitioners. Our attendees hail from academia, media, government, and the private sector. During the four-day event around 300 attendees, panellists, and presenters will engage in a variety of discussions on the recursive relationships between public opinion and development of technology, one of this year's conference highlights. It is a great opportunity to showcase your products and services to key decision makers in the international survey and public opinion industry. It also provides the opportunity to meet colleagues, share the latest best practices, and promote survey innovation throughout the world. It's also a fantastic opportunity for us, as an organization, to show our members which organizations support the mission and ideals of WAPOR.

The 2024 WAPOR Annual Conference will be held in Seoul, South Korea on 28-31 of July, hosted by the Sungkyunkwan University. For this event, we have a range of exclusive, affordable sponsorship opportunities. You can showcase your brand on printed conference materials, signage, program, website, our news, and email marketing campaigns. There are also independent underwriting opportunities for a specific item or event. If you don't see something that suits you, contact us to discuss your options.
